Roxanne,

Attached are a number of documents regarding the FY19 grant allocations. I have tried to explain the history of each grant in terms of funds provided to DOH and funds withheld for contracts. For both grants we will need separate letters requesting that EPA withhold funds for Red Hill support contracts in FY19. We will also need revised budget sheets for each grant. All of this is explained in the two documents "FY19 Prevention grant explanation ver 2" and "FY19 Corrective Action grant explanation". Once you have chance to read them we can have a call to discuss them if you have any questions.

We do need to act fairly quickly on making the final grant awards. If possible I would like to submit the required paperwork to our grants office by the end of next week. I am available most of next week. The best day to try and have a call is Tuesday May 22 but I can also be available after the Red Hill calls on Monday May 21 or up to 10:00 am HST on Thursday May 24.

Bob
